Længde	305 mm
Længde	30 cm
Antal udstødninger	2

PRODUKTINFORMATION

The Rain Bird Swing Joint, type FALCON & 8005 is ideal in professional commercial installations where impact sprinklers are used.
The swing joint's special elbow design reduces the pressure loss by up to 50%, thanks to the improved water stream channels in the joint.
The oversized threaded inlets and double o-rings make installation easier at under water or in

difficult places.
